Subscription Price, 1.00 per year

LOCAL JOTTINGS

The Farmers Co-Operative Co. held a successful Auction Sale on Saturday.

Nightingale sports take place this afternoon. A big crowd is going out from Strathmore, and the total attendance will be large. In addition to the advertised events, a baseball match between Strathmore and the players of Nightingale and Tudor will be one of the main attractions.

Dr. Wright, Dentist, will be in Strathmore August 12.

Yes, they do give you a 75c meal, 35c put up by a first class white chef, at the Maple Leaf Hotel.

A Calgary newspaper stated recently that there was a market for rhubarb at Calgary Public Market, while at Strathmore it was rationed on the grounds. There is chance here for some of the rhubarb growers to get in touch with the consumers.

Mrs Bathurst Hall will receive at the Rectory on Thursday, and on Saturday on second and fourth Tuesdays.

Mr and Mrs Wm Gibbs, of St. Basil's, Mo. left here Monday after a visit to Mrs Gibbs's sister Mrs Chas. Falkner.

The Presbyterian Ladies Aid will meet at the home of Mrs H. F. McDonald on Thursday afternoon at three o'clock.

Mr Joe Smith, section foreman Strathmore, has a big contract on at present. He is plowing the first ground before Monday after Swift Current, using two engines with fourteen plows. The job will keep him busy until the freeze-up. Mr Herb Harmer will be one of his assistants.

Ladies stopping at the Maple Leaf will get all the courtesies possible known here.

The manager, chef, and all employees are white at the Maple Leaf Hotel.

Are the Town Council earnest about cleaning the town of weeds? So far from enforcing the law to regard to keeping lots clean the town streets are adorned with handsome fringes of weeds of practically every species known in the province. When efforts that the Bow Municipality are making to keep down the weeds are considered, the town ought to take effective steps to second their efforts.

On Monday John Gregg was charged with having assaulted H. Macyle, another sectionman, with a shovel. He pleaded guilty, saying that he had considered provocation, and was fined \$2.00 and costs, the costs being over \$12.

Try the high-class wines, liquors, and cigars, at the Maple Leaf Hotel, combined with the service they are unequalled.

A match is being arranged between Strathmore and Langdon baseball teams. It may be held on Friday, but the date is not definitely fixed yet.

Mr A. S. Shaw arrived back from Oregon Thursday. Mr Shaw left here last year, but finds that Alberta is better than Oregon after all.

Farmers Sports

SUCCESSFUL PROGRAMME

A day of sports under the auspices of the United Farmers of Alberta was held in Strathmore last Wednesday evening, and proved so successful that it will probably be an annual affair.

The weather was not in the best favour in the forenoon, which affected the attendance somewhat, but it cleared up in the afternoon.

In addition to the races, an interesting item on the programme was the parade of teams and single horses, both town and country. There was a good turnout. The prize for country teams was won by W. Lee, and for the town R. Anderson. The prize for light teams was won by Mr Miner, Cheshire. The country singles the prize-winner was Mr Hall, and for town singles W. Anderson. A good programme of foot races, lawn tennis, and some specialty races, occupied the most of the afternoon. The tug of war was won by the town, after an exciting struggle with farmers team, skippered by J. Campbell. In the first round Campbell's team defeated the Namska Club team. The town team was skippered by Jack Walls.

The baseball match was won by the town team, by a score of 7-4. The foot-hall match was also won by the town, after an exciting game, the score being 2-0. Morton and Onaydi did the scoring for the town.

The first cricket match, over played in this neighborhood was brought off, and in the town team, also proved victorious by four wickets. Quite a number of spectators followed the game, some of them probably being attracted by the novelty. Grant and Dempster bowled well for the town, and Bill Kayser was the de-mo-ni-um bowler for the Farmers, but his efforts were not well seconded, the fielding being only good in spots. The Farmers were out with a total of 65 runs, for 34 of which Burton was responsible. With six wickets the town had 96, which won them the game.

In the opening attendance made was held in the Open House, the music being provided by the Strathmore Brass Band, and very good indeed.

During the day the Women's Institute provided refreshments and raised a substantial amount, which will go towards the furnishing of the Ladies Rest Room.

Results in the races were:

Children under 5—H. Groves, A. Gray, 3 W. Collier.
Boys under 12—S. Cook, 2 H. Morton, 3 K. Campbell.

Girls under 13—1 K. Falkner, A. Allen, 3 J. Crowley.

Girls under 15—1 M. Hicks, 2 J. Grayson.

Ladies 50yd handball—1 Mrs Grayshaw, 2 Mrs Burton, 3 Mrs Smith.

Sack Race—1 W. Stewart, 2 H. Morton, 3 K. Campbell.

Half Mile Horse Race—1 Hartel, 2 Metran.

50yd scratch—1 Bywaters, 2 Stewart.

On Saturday there was some misunderstanding about the conditions of the race, as a consequence of which it had to be run twice. The winners in the first race were W. Stewart and J. Van Tighem. In the second P. Wright and J. Foster were the winners.

The special prize offered by the Maple Leaf Hotel was awarded to W. Stewart.

Veterans Race—1 A. J. Campbell, 2 O. Miller, Campbell won the special prize of cigars presented by Ronald Hill.

3-legged race—1 G. Cole and Bywaters, 2 H. Williams and Moore.

Victoria Cross race—1 Rose and McLean, 2 Buckingham and Worthington.

On Monday, before Justice Lamont and Victoria Clerk Griffiths was brought forward, on information laid by A. Hinton, on a charge of having driven away a mare and colt without the owner's consent. He was fined \$5.00 and costs. A second charge of having wilfully damaged a wire fence was dismissed.

Southern Alberta Land

Co. Now Operating Canal

FIRST WATER TURNED ON LAST WEEK

The Southern Alberta Land Co. formed with the purpose of supplying water to the district east and in the vicinity of Medicine Hat, has met with a number of setbacks in the construction of the huge works necessary to accomplish the task of taking water to the dry lands near the Hat, but the project is now nearing completion, and on Sunday, 12th inst., the water was turned on at the Nakamaka Dam 18 miles south of Strathmore, and flowed through a 30 mile canal into the Lake McGregor Reservoir.

There was no ceremony attached to the turning on of the water. In fact, the ceremony of turning on the water was performed by H. H. M. the Duke of Connaught, when on his last visit to the West, but a series of delays continued to make the Duke's opening of the dam inoperative till the present time. The perseverance of the engineers is now, however, in a fair way of triumphing over the difficulties, and next year should see the system in full operation, and the company deriving a revenue from the sale of its irrigable lands. The Company are involved in the Grenfell failure in London lately, but arrangements have, it is understood, been made whereby the company will obtain a sum of \$250,000, which will be sufficient to finish the project.

A HUGE UNDERTAKING

The work of constructing the canal begins about 18 miles south of Strathmore, where a big dam of cement work has been constructed across the Bow River and forms an intake of the canal. From there it winds its way about 30 miles to Lake McGregor. This lake is about 12 miles long and is formed by the construction of two huge cement dams across what is known as Snake Valley and as the structure at the north end is about 20 ft high and that at the south end 40 ft, some idea of the great service can be obtained which in places will be two miles wide. It is estimated it will take from three to four months to fill the lake.

From the lake the canal continues south and east until it finally empties into the Little Bow river.

The entire length of the canal will be in the neighborhood of 130 miles and will represent a cost of \$100,000,000 on five sections of 26 miles each.

Geichen has been the headquarters of the company for the work at the west end of the canal and will continue to be until it is finally completed.

The major portion of the work on the east end is now nearing completion, but it is not probable that it will be in readiness to turn the water into the lower canal until some next spring.

In the construction of this canal there have been some most difficult engineering problems and owing to the nature of the soil and for other reasons some of the heaviest of the work had to be replaced.

Weather and Crops

A week of fine weather without wind, or any other disturbing element, has brought the crops along wonderfully, and reasonably warm weather within the next month, the grain will ripen in good time. The crop this year shows a great diversity, and side by side with very good crops can be seen some poor ones. The straw will be short in most cases this year, and the yield probably not as high on average as last year, but as the crops throughout considerable sections of the west have been poor, grain is expected to be considerably higher priced than last year, and the market for feed better. Heavy rain fell Monday evening the record showing .44 of an inch.

Local Breeder's Success

Mr Oscar Miller swept the boards in the hog section of Winnipeg Exhibition, held last week, with his Duroc Jersey herd. His champion boar, "Fancy Col. Miller," won the premier grand open championship for all breeds, and his sow "Princess" won the Reserve Grand Championship for all classes of sows. In addition, of course, the above mentioned won the championships in the Duroc Jersey classes.

THE COST OF LIVING

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower. This, also, is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profit on increased sales.

Advertising is easy—it is simply saying, in writing what you say to the customers in your shop.

Turn over your stock quickly if you want to make more money.

Quality First

Is the motto of the Strathmore Standard Job Printing Department. Cheapness does not pay when the work is poor.

We have adopted the standard of prices at which printers of Winnipeg sell their product. These prices have been compiled by scientific cost estimators, and are dedicated, as the foreword of the price list states, "to the man who is fair to himself, his customer and his calling."

Our previous prices were based on a former Winnipeg price list, which was superseded this year by the present one, and our customers will find a number of alterations caused by variations of price of the raw material used in the printing industry.

Prompt service, good work, and quality material are the ideals we have always kept in mind, and we are constantly adding to our plant and stock to accomplish this.

Guesswork prices mean that one man gets a job for less than it is worth, while the other man is stuck for a big price in order to recoup the difference. Scientific price making is fair to everybody. It allows but a reasonable profit on every job.

Our prices and our product are right. Let us show you.

Bassano 10, Strathmore 4

No. dear reader, this heading is not the introduction to a baseball game. Bassano is not on the baseball map this year. It is merely one way of stating the fact that Bassano has ten train stops each day, exclusive of the train to the Bassano-Tripoli branch. Strathmore has four train stops each day.

To us this seems like rank desertion, inaction on the part of the Company. Nobody objects if Bassano had fifty trains each day, but what reason is there for increasing the Bassano service and decreasing the Strathmore service? By the action of the Company Strathmore is reduced to the position of Sleepy Hollow or Shovelville Junction or places of that description. It is the hardest knock the town has yet received.

There is not a town in Alberta of similar size on the C.P.R. lines that has as poor a train service. All the other towns on the main line have at least three trains each way per day and the towns of any size between Edmonton and Calgary and between Calgary and McLeod have three trains each way service.

It is to be hoped that the appeal to the Railway Commission will bear fruit in a resumption of the former three trains each way service. In any case, the agitation should be kept up by every means possible until the alteration is made.

Sports Day in September

It hardly seems likely that there will be an agricultural fair in Strathmore this year, owing principally to the small number of the agriculturalists. If the majority of the farmers are indifferent as to whether there is to be a fair or not, there is not much encouragement to take the matter up.

However, there is no reason at all why there should not be a big sports day in Strathmore on Labor Day, September 7. The farmers put up a good sports day on their own on Wednesday last, and with the farmers and townspeople combined there is no doubt that a fine sport could be easily arranged, and a big crowd collected to see it. Strathmore has had a successful celebration on Labor Day on several occasions in the past.

Let a meeting be called sometime in the very near future to discuss the matter and appoint committees. There is nothing the matter with a thing of this sort in good time. The longer the time for preparation the better the celebration will be. It may be made to synchronize with the opening of the new fair.

Poste this in your last—Strathmore Standard, September 7.

Subscribe to the Standard. You will get the best possible value for your money.

NOTICE

The Trustees of Strathmore School District No. 1587, invite tenders from painters and carpenters on interior and exterior repairs to the school property.

Particulars of work to be done, and specifications of same may be had from the Secretary at the Town Hall. The School Board does not bind itself to accept the lowest or any tender.

H. WOOD,
Sec. Treas.

Press Association Meets

The annual meeting of the Canadian Press Association was held in the King Edward Hotel, Toronto, July 16 and 17. There was an attendance of over two hundred newspapermen, representatives of every Province of the Dominion. Alberta was represented by Mr. F. W. Horton, of the Calgary Globe, and Mr. John Mackenzie, of the Strathmore Standard.

During the two days either Convention the many problems that affect the newspaper profession were discussed, and some important decisions arrived at. The Postal Committee reported on their action on a bill regarding newspaper postage rates, put forward by the Postmaster-General, and passed by the House of Commons, but killed by the Senate. Under this bill the Postmaster-General would have power to alter rates of postage on newspapers without the consent of Parliament. The Association almost unanimously approved of the action taken by their Postal Committee, and restated their adherence to the principle that all changes in postal rates must come before Parliament for approval. To leave these matters to the Postmaster-General would be to prevent those interested from having their voice heard on the question, and before any changes were made.

MISLEADING ADVERTISING. Following an eloquent and convincing address by Mr. Schreiner of Detroit, the Convention unanimously adopted a resolution which pledged members of the Association to refuse advertising of a character calculated to mislead the public. The Convention was especially of a business nature, and was fraught with much benefit to members of the Fourth Estate in Canada.

Irrigation Congress At Calgary

When the International Irrigation Congress meets in Calgary, October 29th this year, the gathering will be a memorable one. It will be the first convention outside the United States, and delegates will be present not only from that country and Canada, but from many foreign countries where irrigation is well developed.

That Calgary is the natural convention city in Canada of this great organization is conceded, as is the fact that the city is the center of a single irrigation project on the American continent and the second largest in the world. This season, which is a good one for the irrigation methods of agriculture in general, and those who have settled on the land and are experiencing great benefit from the water which are stored for their use. Many of these are American in origin, and have come to Canada via a thorough knowledge of irrigation methods, and the success they have had in these irrigated areas will be seen by those who attend the congress. Special arrangements are being made by the Canadian Pacific Railway for an excursion to Bassano Dam.

Canadian methods of colonization which are responsible for the settlement of these American farmers on the land, will be of unusual interest to the visitors from Uncle Sam's land, and a part of the programme of this year will be devoted to the study of colonization methods, which stand the test of time, and which by Canadians some benefit may be derived in the endeavor of Uncle Sam to keep his rural citizens at home.

Among the speakers expected at this convention will be Hon. A. J. Jones, assistant secretary of the Interior of the United States, who is recognized as one of the best posted men in his country on the subject of irrigation development.

C.P.R. Aids Schools

On account of the interest which it shows in the welfare of settlers in Western Canada, the Canadian Pacific Railway has sometimes been called a "Paternal" corporation. This description will appear only the more appropriate when it is learned that the Company through its Department of Natural Resources at Calgary, has advanced over \$10,000 in cash to a number of rural school districts in Alberta, which are having difficulty in financing their affairs.

The school districts assisted, are all within the Irrigation Block east of Calgary and the assistance given is in the form of a loan averaging

The West can demand bonuses for the flax industry with some reason seeing that they have paid their share of the bonuses on pig iron, steel, etc., for many years.

A PERTINENT QUESTION

The Lacombe "Globe" interrogates its Readers—How do you like Free Trade?

In a recent issue the Lacombe "Globe" propounds the following question to its readers:

According to some of our friends, free trade is a cure for all the difficulties a farmer has. We have recently had a splendid example of the way it works. Many Lacombe farmers

with a considerable number of hogs, and were congratulating themselves that they were a very profitable

as last week their pigs dropped from twenty-five cents a dozen to about half that price, cutting off nearly all the profit. Why this?

We have only a small import duty on eggs (were they free traders would be still wiser), and outside markets being glutted, the surplus was dumped at an low price. Not the local buyer or importer, all of whom would have prevented this and reserved the market for the Alberta farmer.

Who profited by it? Certainly not the producer, who must sell his eggs at as low a price. Not the local buyer or importer, all of whom would have prevented this and reserved the market for the Alberta farmer.

Who profited by it? Certainly not the producer, who must sell his eggs at as low a price. Not the local buyer or importer, all of whom would have prevented this and reserved the market for the Alberta farmer.
